American Libraries ● 2005 Annual Index
The 2005 Index bears witness to the double burden of poverty and corruption borne by the world's least developed countries. "Corruption is a major cause of poverty as well as a barrier to overcoming it," said Transparency International Chairman Peter Eigen. "The two scourges feed off each other, locking their populations in a cycle of misery. Corruption must be vigorously addressed if aid is to make a real difference in freeing people from poverty."
