1. Introduction

The students of our area cannot profit greatly by the study of English literature unless they clearly understand its underlying principles. To serve as a stepping stone, English literature with its various genres has been introduced as Course in Optional English to the UG classes of Arts and Humanities.

Learners of this course must opt this course as one of their three optional subjects so that they can study various genres of English literature during the period of three years of their graduation. Literature makes the learners to feel for others. It acquaints us with various thoughts, challenges, attitudes, decisions, life styles, noble passions, social, political, historical, religious, economic, philosophic, scientific and many other traditions and customs and how human beings with their tradition and individual talent have made this life what it is. All these things through pseudo experiences make the literates sensitive and sensible enough to survive in this would be ideal world. Literature is the lie that enables we the learners to realize the truth.

On the other hand, literature is a mode of reflecting reality, intending to appeal to the various faculties of sensitive sensible and sentient man. It also offers pleasure. Besides it helps the learner to know the noble values in life making him a responsible citizen of this world and leads him to make the place more worth living.
