The mathematics major is appropriately a Letters and Science major that is a foundation for many other careers that ask for a quantitative mine. While the jobs that have mathematics in their title are usually dedicated to those who have advanced degrees. For undergraduate degree holders, the mathematics major can do well with entry level statisticians, analysts and even analytics. Most of these jobs require expertise in a specific application and any job that describes knowledge and skill in that application and requires quantitative skill is in your sphere of capability. This includes report
