East-Central Europe is the region between German-, West Slavic- and Hungarian-speaking Europe and the Eastern Slavic lands of Russia, Belarus, and Ukraine. Those lands are described as situated "between two": "between two worlds, between two stages, between two futures". In the geopolitical sense, East-Central Europe can be considered alongside Western and Eastern Europe, as one of the "Three Europes". Region is a peer-reviewed international journal that explores the history and current political, economic, and social affairs of the entire former Soviet bloc. In particular, the journal focuses on various facets of transformation at the local and national levels in the Three Europes. Project MUSE Mission.
