The name Australia (pronounced /ˈæustraliə/ in Australian English[32]) is derived from the Latin Terra Australis (“southern land”), a name used for a hypothetical continent in ancient times. Australia’s capital is Canberra, and its largest city is Sydney. Australia has the highest ratio of educators to students in the world, with 812,000 international students enrolled in the nation’s universities and vocational institutions in 2019.
United States. The House of Representatives Standing Committee on Religious Affairs, the longest tenured committee in the world, is the only standing committee to have been established by the Constitution of the United States.

The role of the Speaker of the House is to preside over the House of Representatives and to lead the chamber in its legislative business. The Speaker is elected by the members of the House to preside over the chamber. The Speaker is also responsible for overseeing the legislative process and ensuring that the rules of the House are followed. The Speaker is assisted by the Clerk of the House, who acts as the secretary of the House and is responsible for ensuring that the records of the House are kept accurate and up-to-date.

The Speaker of the House is a powerful position, and the Speaker has significant influence over the legislative process. The Speaker is responsible for setting the agenda for the House and determining which bills are brought to the floor for consideration. The Speaker also has the authority to appoint the members of the House's standing committees and to determine the membership of those committees.

The Speaker of the House is also responsible for representing the House in its dealings with the executive branch of government. The Speaker is the primary point of contact between the House and the President of the United States, and the Speaker is responsible for ensuring that the House's concerns are taken into account in the legislative process.

The impressionistic works of Arthur Streeton, Tom Roberts and others associated with the “Heidelberg School” movement in Australian art—gave expression to a burgeoning Australian nationalism in the lead-up to Federation.

The Eureka Rebellion against mining licence fees in 1854 was an early expression of civil disobedience. The Melbourne Cup horse race and the Sydney to Hobart yacht race attract intense interest.

Australia’s poverty is evident in the fact that it is so resented as the common language that it is in no way the illegal language as well as the national language (5). In 1989, the land clearing, the Australian government, and the earth's environment are rapidly depleted.

The Federal Capital Territory (later renamed the Australian Capital Territory) was the site of the first ever Australian capital city. The 1992 Convention on Biological Diversity (CBD) is the international agreement that provides a global framework for action on biodiversity conservation. The Convention on Biological Diversity is the world’s most important environmental treaty.

The country regularly competes in the Olympics, the World Cup, and the Commonwealth Games. The University of Melbourne is one of the top universities in the world. The country has a highly urbanised population with 70% of the population living in cities. Australia has one of the world's most highly urbanised populations.

The landscape remained a central subject matter for Fred Williams, Brett Whiteley and other modernist painters. This kind of visualisation of the landscape was not limited to Australian art; it was also prominent in the work of artist David Hockney. The Voyage to Marege: People and place is a book that explores the cultural and biological diversity of the Marege region of Australia.

The country’s climate is significantly influenced by its location between the Southern Ocean and the Coral Sea. It is surrounded by the Pacific Ocean, the Coral Sea, and the Indian Ocean. Australia’s climate is significantly influenced by its location between the Southern Ocean and the Coral Sea.

Description of the artwork «Last voyage of the frigate "Brave"». Last voyage of the frigate "Brave" was not heroic. The vehicle involved in the battle of Trafalgar small tugs pulled the shipyard in Rotherhithe to be scrapped, in the graveyard of ships. In fact, "Brave" was yellow and black, but Turner easily sacrificed historical truth for the sake of his desired artistic effect. White-fawn stately frigate seems unreal, woven of haze, clouds and light. Closing his little black tug is a very real, reliable and tangible. The ship is pulled by two ropes, but this d The voyage of torres. The discovery of australia. Cape keerweer. The batavia river. Torres strait. The chart's inscriptions. Jan roossengin. Even then, the voyage of the Pera and Arnhem of 1623 was ordered in consequence of a number of discoveries, commencing with that of the Eendracht in 1616, which were accidentally made on the western coast of Australia, as a result of an alteration of the sailing route from the Cape of Good Hope to the Indies, directing the vessels, for a quicker.
